

Code	Magnetic force	Applicable holding stem	Remark
6231-60	60kgf	Ø8mm	without fine adjustment or dovetail groove

- 1-Holding locking screw
- 2-Holding device
- 3-Vice pole
- 4-Magnetic switch

- 5-Main pole
- 6-Locking wrench
- 7-Magnetic base

1. This magnetic stand is for digital/dial indicators and dial test indicators.

2. Usage:

---Holding indicator as below ways.

holding stem Ø8mm in metric

---Let the magnetic base be in contact with the machine tool, then turn on the magnetic switch to make sure that the magnetic stand can contact with the machine tool steadily.
 Caution: Please make sure that the magnetic base and machine tool are cleaning, otherwise, the magnetic stand may slide slightly during measurement, which will affect the measuring results.

---Loose the holding locking screw, lock it after installing the indicator. Loose the locking wrench to adjust to the appropriate position. After adjustment, please make sure each part is locked steadily.

---After measurement, turn off the magnetic switch, magnetic stand can be removed from the machine tool.

3. To get accurate measurement, please try to avoid using the magnetic stand in vibration environment.
